SUMMARY

Full-Stack Software Engineer with hands-on experience building scalable **web and mobile applications**. Skilled in **React.js, Next.js, React Native, NestJS, and PostgreSQL**, with strong expertise in delivering responsive, high-performance, and user-centric solutions. Adept at collaborating in Agile environments, solving problems, and implementing impactful features that enhance usability and efficiency.

EXPERIENCE

Software Engineer Intern

FarselT 10/2024 - 02/2025 Mirpur DOSH, Dhaka, Bangladesh

A tech company specializing in innovative software solutions

- Built and optimized responsive user interfaces with Next.js, React.js, Tailwind CSS, and Ant Design, improving UI performance and accessibility.
- Integrated Framer Motion animations, enhancing user engagement and interactivity.
- Developed and maintained RESTful APIs with NestJS and PostgreSQL, ensuring efficient data handling and scalability.
- Collaborated with cross-functional teams in an Agile workflow to deliver new features and resolve critical issues.

PROJECTS

FurniFlex – Full-Stack E-commerce Platform

11/2024 - 12/2024

https://surl.li/nltmef

- Implemented responsive design with product listings, user authentication, and shopping cart functionality.
- Developed a responsive e-commerce platform with secure authentication, product listings, and a shopping cart.
- Implemented server-side rendering with Next.js, optimizing performance and SEO.
- Designed a scalable architecture supporting future features like search, filtering, and sorting.

Refindz – Cross-Platform Mobile App

06/2024 - 12/2024

https://www.refindz.io/

- Developed a React Native app for iOS and Android with social authentication and item management.
- Built a React Native app for Android and iOS with social authentication and item management.
- Added real-time features including chat and ratings, improving user engagement.
- Successfully launched in Play Store and App Store.
